

## Updated HPI Template List

There are 18 HPI templates with E&M coding that have either been updated with additional HPI fields, have existing fields that have been mapped to HPI coding points, or have fields that were remapped to a different HPI coding point.

These changes will allow you to document all 8 HPI elements, or at least all pertinent HPI elements, and are included in the quality points calculations.

Below is a list of the templates that have been updated.

1. Infertility: Duration and Severity
2. Vaginal Bleeding: Quality
3. Abnormal GI Study: Location
4. Cirrhosis Follow-up: Quality
5. Blood in Stool: Location
6. Hepatitis B: Modifying
7. Hepatitis C: Modifying
8. Liver Disease: Modifying
9. BPH: Quality
10. Female Surgery Follow-Up: Duration, Modifying, and Quality
11. Urinary Cancer Follow-up: Location and Severity
